## NOMINAL VOLTAGE LEVELS

### AVAILABILITY:

All areas within High Plains Power's certificated territory.

### SECONDARY:

Single Phase: 120 Volts; 480 Volts; 120/240 Volts

Three Phase: 208Y/120 Volts; 240/120 Volts; 480/240 Volts;  
480Y/277 Volts; 12,470Y/7,200 Volts; 24,900Y/14,400 Volts

### PRIMARY:

The voltage of the Cooperative's nearest distribution line of adequate capacity.

### TRANSMISSION:

The voltage of the Cooperative's nearest transmission line of adequate capacity.

SERVICE: Electricity

---

## **SINGLE PHASE SERVICE**

### **AVAILABILITY:**

All areas within High Plains Power's certificated territory.

### **APPLICABLE:**

To all member/owners of the Cooperative for general purpose single-phase service, provided that the rating of individual single-phase motors served hereunder shall not exceed ten horsepower (10 HP).

### **TYPE OF SERVICE:**

Single-phase service at standard secondary voltage as defined by the Cooperative.

### **RETAIL RATE:**

See Rate Tariff Summary Sheet

### **MINIMUM BILL:**

The minimum bill for billing period shall be the highest of the following:

1. The Facilities Charge;
2. As specified in the contract for service;
3. Excess transformer capacity charge of \$2.10 per kVA in excess of 25 kVA.

### **TERMS OF PAYMENT:**

The above charges are due fifteen (15) days following the date of the bill. If payment is not received by the due date of the bill, the above charges plus any unpaid balance, shall be increased by one and one-half percent (1.5%) for each billing period that the bill is unpaid.

### **RULES AND REGULATIONS:**

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

### **BILLING DEMAND:**

The billing demand shall be the maximum kilowatt demand established by the member/owner for any period of fifteen (15) consecutive minutes during the billing period for which the bill is rendered, as indicated or recorded by a demand meter.

### **POWER COST ADJUSTMENT (PCA):**

The PCA is applied as a percentage increase to the per-kWh energy charge and is an adjustment to the member/owner's electric bill each billing period to reflect fluctuations in the true cost of power the Cooperative purchases from its wholesale supplier(s).

**SEASONAL SERVICE – discontinued 7/1/2023**

**AVAILABILITY:**

All areas within High Plains Power's certificated territory.

**APPLICABLE:**

To seasonal rural recreational cabins, and miscellaneous farm service such as water wells, livestock sheds, etc.

**TYPE OF SERVICE:**

Single-phase service at standard secondary voltage as defined by the Cooperative.

**ANNUAL RATE:**

See Rate Tariff Summary Sheet

**MINIMUM BILL:**

The minimum annual billing under this schedule shall be the Facilities Charge.

**ADDITIONAL CHARGES:**

Any amount authorized under the Cooperative's line extension policy, will be in addition to charges of this rate schedule.

**TERMS OF PAYMENT:**

The above charges are due by the 10th of the month following the date of the bill. If payment is not received by the 10th of the month following the date of the bill, the above charges plus any unpaid balances, shall be increased by one and one-half percent (1.5%) for each month the bill is unpaid.

**RULES AND REGULATIONS:**

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

### **THREE-PHASE SERVICE**

#### **AVAILABILITY:**

All areas within High Plains Power's certificated territory.

#### **APPLICABLE:**

To all member/owners of the Cooperative to the extent that appropriate facilities exist or it is feasible to install them, for three-phase general purpose loads.

#### **TYPE OF SERVICE:**

Three-phase service at standard secondary voltage as defined by the Cooperative.

#### **RETAIL RATE:**

See Rate Tariff Summary Sheet

#### **MINIMUM BILL:**

The minimum bill for billing period shall be the highest of the following:

1. The Facilities Charge;
2. As specified in the contract for service;
3. Excess transformer capacity charge of \$2.10 per kVA in excess of 25 kVA.

#### **TERMS OF PAYMENT:**

The above charges are due fifteen (15) days following the date of the bill. If payment is not received by the due date of the bill, the above charges plus any unpaid balance, shall be increased by one and one-half percent (1.5%) for each billing period that the bill is unpaid.

#### **RULES AND REGULATIONS:**

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

#### **BILLING DEMAND:**

The billing demand shall be the maximum kilowatt demand established by the member/owner for any period of fifteen (15) consecutive minutes during the billing period for which the bill is rendered, as indicated or recorded by a demand meter.

#### **POWER COST ADJUSTMENT (PCA):**

The PCA is applied as a percentage increase to the per-kWh energy charge and is an adjustment to the member/owner's electric bill each billing period to reflect fluctuations in the true cost of power the Cooperative purchases from its wholesale supplier(s).

## **IRRIGATION SERVICE**

### **AVAILABILITY:**

All areas within High Plains Power's certificated territory.

### **APPLICABLE:**

To each service for irrigation pumping. The irrigation season is defined as April 1 to September 30 of each year.

### **TYPE OF SERVICE:**

Single-phase and three-phase service at standard secondary voltage as defined by the Cooperative.

### **RATE:**

See Rate Tariff Summary Sheet

### **HORSEPOWER CHARGE:**

The Horsepower Charge shall be billed at one quarter (1/4) of total horsepower charge per billing period for billing periods May, June, July and August.

### **MINIMUM BILL:**

The minimum charge per service shall be based on ten (10) horsepower and will be evenly divided between the first four billing periods during the irrigation season

### **TERMS OF PAYMENT:**

The above charges are due fifteen (15) days following the date of the bill. If payment is not received by the due date of the bill, the above charges plus any unpaid balance, shall be increased by one and one-half percent (1.5%) for each billing period that the bill is unpaid.

### **RULES AND REGULATIONS:**

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

### **BILLING DEMAND:**

The billing demand shall be the maximum kilowatt demand established by the member/owner for any period of fifteen (15) consecutive minutes during the billing period for which the bill is rendered, as indicated or recorded by a demand meter.

### **POWER COST ADJUSTMENT (PCA):**

PCA is applied as a percentage increase to the per-kWh energy charge and is an adjustment to the member/owner's electric bill each billing period to reflect fluctuations in the true cost of power the Cooperative purchases from its wholesale supplier(s).

## **LARGE POWER UNDER 500 KW SERVICE**

### **AVAILABILITY:**

All areas within High Plains Power's certificated territory.

### **APPLICABLE:**

To all member/owners of the Cooperative to the extent that appropriate facilities exist or it is feasible to install them, for three-phase general purpose loads in excess of 45 kVA of installed transformer capacity and with an average maximum demand less than 500 kW for the six billing periods ending with the current billing period. Loads served at the Distribution Substation or Transmission will be served in the Large Power 500 kW or Greater service class.

### **TYPE OF SERVICE:**

Three-phase service at standard secondary and primary voltage as defined by the Cooperative in its Rules and Regulations.

### **RETAIL RATE:**

See Rate Tariff Summary Sheet

### **MINIMUM BILL:**

Subject to the provisions of special contracts, the minimum charge hereunder shall be \$85.00 plus \$2.10 per kVA of transformer capacity at the service in excess of 45 kVA, or the amount specified in the contract for service.

### **TERMS OF PAYMENT:**

The above charges are due fifteen (15) days following the date of the bill. If payment is not received by the due date of the bill, the above charges plus any unpaid balance, shall be increased by one and one-half percent (1.5%) for each billing period that the bill is unpaid.

### **PRIMARY SERVICE DISCOUNT:**

If the member/owner owns, operates, and maintains all the facilities for receiving the service at primary level service, a 2% discount on the demand and energy charges shall apply.

### **POWER COST ADJUSTMENT (PCA):**

The PCA is applied as a percentage increase to the per-kWh energy charge and is an adjustment to the member/owner's electric bill each billing period to reflect fluctuations in the true cost of power the Cooperative purchases from its wholesale supplier(s).

**LARGE POWER UNDER 500 KW SERVICE - continued**

**RULES AND REGULATIONS:**

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

**BILLING DEMAND:**

The billing demand shall be the maximum kilowatt demand established by the member/owner for any period of fifteen (15) consecutive minutes during the billing period for which the bill is rendered, as indicated or recorded by a demand meter and adjusted for power factor as provided below.

**POWER FACTOR ADJUSTMENT:**

The Cooperative may make periodic tests to determine the member/owner's power factor. If the average power factor is less than ninety-five percent (95%) lagging, the total for the billing period will be increased by an amount equal to one percent (1%) for each one percent (1%) by which the average power factor is less than ninety-five percent (95%) lagging.

## **LARGE POWER 500 KW OR GREATER SERVICE**

### **AVAILABILITY:**

All areas within High Plains Power's certificated territory.

### **APPLICABLE:**

To all member/owners of the Cooperative in all areas of the Cooperative's system to the extent that appropriate facilities exist, or it is feasible to install them, for three-phase general purpose loads of 500 kW or greater and all loads served at Distribution Substation or Transmission level of service. The 500 kW demand is based on a six billing period average. Once this average is met, member/owner will be in this class for twelve consecutive billing periods. If the member/owner's load is served at the Distribution Substation or Transmission level service, the service will remain in this class.

### **TYPE OF SERVICE:**

Three-phase service at standard transmission, distribution substation, distribution primary and distribution secondary voltage as defined by the Cooperative in its Rules and Regulations.

### **RETAIL RATE:**

See Rate Tariff Summary Sheet

### **DEMAND:**

The Demand shall be the maximum kilowatt demand established by the member/owner for any period of fifteen (15) consecutive minutes during the billing period for which the bill is rendered, as indicated or recorded by a demand meter and adjusted for power factor as provided below.

### **TPP DEMAND:**

The TPP Demand shall be the kilowatt demand established in the coincident peak interval as defined in the applicable Wholesale rate to the Cooperative. In the event the interval data is not available for the member/owner, the Cooperative may estimate the TPP Demand.

### **POWER FACTOR ADJUSTMENT:**

The Cooperative may make periodic tests to determine the member/owner's power factor. If the average power factor is less than ninety-five percent (95%) lagging, the total for the billing period will be increased by an amount equal to one percent (1%) for each one percent (1%) by which the average power factor is less than ninety-five percent (95%) lagging.

## **LARGE POWER 500 KW OR GREATER SERVICE - continued**

### **MINIMUM BILL:**

Subject to the provisions of special contracts, the minimum charge hereunder shall be the Facilities Charge plus the highest recorded demand multiplied by the Demand Charge in the previous twelve (12) billing periods, or the amount specified in the contract for service.

### **TERMS OF PAYMENT:**

The above charges are due fifteen (15) days following the date of the bill. If payment is not received by the due date of the bill, the above charges plus any unpaid balance, shall be increased by one and one-half percent (1.5%) for each billing period that the bill is unpaid.

### **RULES AND REGULATIONS:**

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

### **POWER COST ADJUSTMENT (PCA):**

The PCA is applied as a percentage increase to the per-kWh energy charge. The TPP PCA is applied as a percentage increase to the per-kW TPP billing demand charge. They are adjustments to the member\owner's electric bill each billing period to reflect fluctuations in the true cost of power the Cooperative purchases from its wholesale supplier(s).

## WHOLESALE GENERATION FACILITIES SERVICE

### AVAILABILITY:

All areas within High Plains Power's certificated territory.

### APPLICABLE:

For startup and maintenance power service provided at various service levels for wholesale generation facilities including but not limited to wind farms and other renewable generation facilities subject to the Rules and Regulations of the Cooperative and of the Cooperative's wholesale power supplier.

### TYPE OF SERVICE:

Three-phase service at standard transmission, distribution substation, and distribution primary voltage as defined by the Cooperative in its Rules and Regulations.

### RETAIL RATE:

See Rate Tariff Summary Sheet

### FACILITIES DEMAND:

The facilities demand billing kW shall be the greater of:

1. The maximum kilowatt demand established by the member/owner for any period of fifteen (15) consecutive minutes during the billing period for which the bill is rendered, as indicated, or recorded by a demand meter and adjusted for power factor as provided below
2. One-hundred percent (100%) of the highest facilities demand established in the eleven (11) billing periods preceding the current billing period; or
3. The contract demand.

### TPP DEMAND:

The TPP Demand shall be the kilowatt demand established in the coincident peak interval as defined in the applicable Wholesale rate to the Cooperative. In the event the interval data is not available for the member/owner, the Cooperative may estimate the TPP Demand.

### MINIMUM BILL:

The minimum billing period charge shall be the Facilities Charge plus the Facilities Demand Charge but not less than the amount specified in the contract for service. Power supply costs are in addition to the billing period minimum charge.

### POWER FACTOR ADJUSTMENT:

The Cooperative may make periodic tests to determine the member/owner's power factor. If the average power factor is less than ninety-five percent (95%) lagging, the total billing for the period will be increased by an amount equal to one percent (1%) for each one percent (1%) by which the average power factor is less than ninety-five percent (95%) lagging.

SERVICE: Electricity

---

**WHOLESALE GENERATION FACILITIES SERVICE –(Continued)**

**SPECIAL TERMS AND CONDITIONS OF SERVICE:**

1. Service under this tariff will not be provided unless the member/owner has complied with:
  - a. all the Cooperative's requirements related to the interconnection of generation facilities; and
  - b. all the requirements of the Cooperative's wholesale power supplier for startup and supplemental power and the interconnection of generation facilities.
2. Service under this tariff shall be for periods of not less than twelve (12) billing periods.

**TERMS OF PAYMENT:**

The above charges are due fifteen (15) days following the date of the bill. If payment is not received by the due date of the bill, the above charges plus any unpaid balance, shall be increased by one and one-half percent (1.5%) for each billing period that the bill is unpaid.

**RULES AND REGULATIONS:**

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

**POWER COST ADJUSTMENT (PCA):**

The PCA is applied as a percentage increase to the per-kWh energy charged. The TPP PCA is applied as a percentage increase to the per-kW TPP billing demand charge. They are adjustments to the member\owner's electric bill each billing period to reflect fluctuations in the true cost of power the Cooperative purchases from its wholesale supplier(s).

## SECURITY LIGHT SERVICE

### AVAILABILITY:

All areas within High Plains Power's certificated territory.

### APPLICABLE:

To all users where unmetered 120 or 240 voltage power is available.

### RETAIL RATE:

See Rate Tariff Summary Sheet

Consumer Powered\energy through meter (not available for maintenance) @ actual kWh

175 Watt Mercury Vapor*	70 kWh per billing period, per light.
400 Watt Mercury Vapor*	170 kWh per billing period, per light.
100 Watt HPS*	44 kWh per billing period, per light.
150 Watt HPS*	59 kWh per billing period, per light.
48 Watt LED	20 kWh per billing period, per light.
72 Watt LED	30 kWh per billing period, per light.

### MINIMUM BILL:

If a transformer serves the security light only, a Facilities Charge of \$16.40 per billing period will be added to the above charges.

### TERMS OF PAYMENT:

The above charges are due fifteen (15) days following the date of the bill. If payment is not received by the due date of the bill, the above charges plus any unpaid balance, shall be increased by one and one-half percent (1.5%) for each billing period that the bill is unpaid.

### RULES AND REGULATIONS:

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

\* Mercury Vapor and High Pressure Sodium (HPS) lights are not available for new installations.

SERVICE: Electricity

---

## RESIDENTIAL TIME OF USE SERVICE

### AVAILABILITY:

All areas within High Plains Power's certificated territory.

### APPLICABLE:

Optional rate to residential member/owners qualifying to receive service under the "Single-Phase Service" tariff. **CLOSED TO NEW SERVICES**

### TYPE OF SERVICE:

Single-phase, 60 cycle, at Cooperative's standard secondary voltage.

### RETAIL RATE:

See Rate Tariff Summary Sheet

### On-Peak Hours:

Winter (October 1 to March 31):

6 A.M. to 12 P.M. and 5 P.M. to 10:30 P.M.

Summer (April 1 to September 30):

7:30 A.M. to 10 P.M.

### Off-Peak Hours:

All other hours throughout the year

### MINIMUM BILL:

The minimum billing period amount under this schedule shall be the Facility Charge or as stipulated in the contract for electric service.

### TERMS OF PAYMENT:

The above charges are due fifteen (15) days following the date of the bill. If payment is not received by the due date of the bill, the above charges plus any unpaid balance, shall be increased by one and one-half percent (1.5%) for each billing period that the bill is unpaid.

### RULES AND REGULATIONS:

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

### BILLING DEMAND:

The billing demand shall be the maximum kilowatt demand established by the member/owner for any period of fifteen (15) consecutive minutes during the billing period for which the bill is rendered, as indicated or recorded by a demand meter.

### POWER COST ADJUSTMENT (PCA):

The PCA is applied as a percentage increase to the per-kWh energy charge and is an adjustment to the member/owner's electric bill each billing period to reflect fluctuations in the true cost of power the Cooperative purchases from its wholesale supplier(s).

SERVICE: Electricity

---

## STANDBY AND RESERVE POWER SERVICE OVER 1000 KW

### AVAILABILITY:

All areas within High Plains Power's certificated territory.

### APPLICABLE:

For standby and reserve power service provided at various service levels for generation or co-generation facilities in excess of Wyoming Statute § 37-16-101 to 104 and is intended to offset all or partial member/owner load. This rate applies to the load that is being offset by the member/owner generation. Remaining load will be charged at standard rates.

Service under this rate is subject to the Rules and Regulations of the Cooperative and of the Cooperative's wholesale power supplier. This is retail service and resale is prohibited.

### TYPE OF SERVICE:

Three-phase service at standard transmission, distribution substation, distribution primary and distribution secondary voltage as defined by the Cooperative in its Rules and Regulations.

### RETAIL RATE:

See Rate Tariff Summary Sheet

### Power Supply:

The total cost of power incurred by the Cooperative to serve the member/owner including but not limited to power supply capacity and power supply energy, power supply fuel, purchased power demand and energy, transmission delivery, ancillary, and support charges for the billing period plus adjustments applied to the current period billing to account for differences in actual purchased electricity costs billed in previous periods.

The power cost will be calculated using the billing units defined in the same manner as defined in the applicable wholesale rate and other charges to the Cooperative, including any PCA provisions. The member/owner's billing units for power cost may be adjusted for line losses, as determined by the Cooperative, to calculate the member/owner's power cost at the wholesale supplier's metering point to the Cooperative.

### FACILITIES DEMAND:

The Facilities Demand billing kW shall be the greater of:

1. The maximum kilowatt demand established by the member/owner for any period of fifteen (15) consecutive minutes during the billing period for which the bill is rendered, as indicated or recorded by a demand meter and adjusted for power factor as provided below
2. One-hundred percent (100%) of the highest facilities demand established in the eleven (11) billing periods preceding the current billing period; or
3. The contract demand.

SERVICE: Electricity

---

**STANDBY AND RESERVE POWER SERVICE OVER 1000 KW - (Continued)**

In those periods in which a Cooperative outage occurs, the billing kW will be adjusted to eliminate any duplication of demand values.

**MINIMUM BILL:**

The minimum billing period charge shall be the Facilities Charge plus the Facilities Demand Charge but not less than the amount specified in the contract for service. Power supply costs are in addition to the billing period minimum charge.

**POWER FACTOR ADJUSTMENT:**

The Cooperative may make periodic tests to determine the member/owner's power factor. If the average power factor is less than ninety-five percent (95%) lagging, the total for the billing period will be increased by an amount equal to one percent (1%) for each one percent (1%) by which the average power factor is less than ninety-five percent (95%) lagging.

**SPECIAL TERMS AND CONDITIONS OF SERVICE:**

1. Member/owner will notify the Cooperative by telephone each time that standby power is taken for maintenance, operational or emergency needs. Member/owner will provide notice in advance of scheduled outage and indicate estimated duration of outage.
2. Service under this tariff will not be provided unless member/owner has complied with:
  - a. All the Cooperative's requirements related to the interconnection of generation facilities; and
  - b. All the requirements of the Cooperative's wholesale power supplier related startup and supplemental power and to the interconnection of generation facilities.
3. Any and all facilities the Cooperative's wholesaler requires will be the liability of the member/ owner. This includes, but not limited to, additional meters, metering communication, etc.
4. Member/owner may be responsibility for a system impact study to safeguard the Cooperative's system.
5. Member/owner and Cooperative can agree to Facilities Demand Charges in special circumstances.
6. The member/owner will be provided written notice of any changes to the standby and reserve rates of the wholesale power supplier within 30 days of the Cooperative's receipt of notice from its wholesale supplier of such changes.
7. Service under this tariff shall be for periods of not less than twelve (12) consecutive billing periods.

**TERMS OF PAYMENT:**

The above charges are due fifteen(15) days following the date of the bill. If payment is not received by the due date of the bill, the above charges plus any unpaid balance, shall be increased by one and one-half percent (1.5%) for each billing period that the bill is unpaid.

**RULES AND REGULATIONS:**

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

## NET METERING

### APPLICABLE:

To any member/owner that has installed and uses a solar, wind, biomass, or hydroelectric generating facility of not more than twenty-five (25) kilowatts that is located on the member/owner's premises, is interconnected and operates in parallel with the Cooperative's existing distribution facilities, and is intended primarily to offset part or all of the member/owner's own electrical requirements measured by the Cooperative at a member/owner's single metered point of delivery. Only the member/owner's electrical loads attached to and served by this single metering point shall be included in the calculation of net metering against any generation produced by the member/owner pursuant to the conditions in this tariff.

A generating facility that is not interconnected to the load side of the member/owner's said metered point of delivery for electric service shall not be applicable for service under this rate schedule. This schedule is offered in compliance with Wyoming Statute § 37-16-101 to 104.

### AVAILABILITY:

This service shall be available to member/owners of High Plains Power, Inc. who agree to the requirements of this tariff.

### DEFINITIONS:

Net metering means measuring the difference between the electricity supplied by the Cooperative and the electricity generated by an eligible member/owner-generator and fed back to the electric grid over the applicable billing period.

### BILLING PERIOD:

Charges for the billing period shall be computed in accordance with the applicable standard service tariff.

If the electricity supplied by the Cooperative exceeds the electricity generated by the member/owner, the per kWh charge specified in the Energy Charge section of the applicable standard service tariff shall be applied to the positive kWh balance owed to the Cooperative.

If the electricity supplied by the member/owner-generator exceeds that supplied by the Cooperative, the member/owner shall be billed for the appropriate billing period charges, and the Cooperative will compensate the member/owner for any excess electricity produced as follows:

The rate credited for electricity shall be the Cooperative's avoided cost, which can be found on the Cooperative's Schedule of Fees, Allowances & Supplemental Rate tariff sheet. Said payment for the excess electricity generated shall be calculated and reflected as a dollar and cents credit on the bill for the following billing period.

If a credit balance exists at the end of the year, the Cooperative shall issue payment of same. A credit reflected on the member/owner's account at year-end will not be carried forward.

SERVICE: Electricity

---

**NET METERING** - continued

**SERVICE CONDITIONS:**

1. The member/owner is responsible for all costs associated with its facility, for all costs related to any modifications to the facility and for all costs related to any modifications to the facility that may be required by the Cooperative for purposes of safety and reliability.
2. A net metering facility shall meet all applicable safety and performance standards established by the National Electrical Code, the Institute of Electrical and Electronics Engineers, and Underwriters Laboratories.
3. The member/owner shall, at its expense, provide lockable switching equipment capable of isolating the net metering facility from the Cooperative's system. Such equipment shall be approved by the Cooperative and shall be accessible by the Cooperative at all times.
4. The Cooperative shall not be liable directly or indirectly for permitting or continuing to allow an attachment of a net metering facility, or for the acts or omissions of the member/owner that cause loss or injury, including death, to any third party.

**RULES:**

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

## **SPECIAL RATE OPTIONS**

### **AVAILABILITY:**

All areas within High Plains Power's certificated territory to loads qualifying for the special rate offered by Tri-State Generation and Transmission Association, Inc.

### **APPLICABLE:**

Special rate options may be applicable in conjunction with special rates offered by Tri-State Generation and Transmission Association to High Plains Power to facilitate economic development and promote strategic load growth and retention.

### **RETAIL RATE:**

The specific rate for each qualifying load shall be set forth in detail in a contract between the member/owner and the Cooperative. All of the Cooperative's costs shall be recovered and there is no burden and some benefit to all of the Cooperative's member/owners.

### **SPECIAL TERMS AND CONDITIONS OF SERVICE:**

A recording demand meter shall be installed at the point of delivery to member/owner.

### **TERMS OF PAYMENT:**

The above charges are due fifteen (15) days following the date of the bill. If payment is not received by the due date of the bill, the above charges plus any unpaid balance, shall be increased by one and one-half percent (1.5%) for each billing period that the bill is unpaid.

### **RULES AND REGULATIONS:**

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

## PREPAID SINGLE-PHASE SERVICE (VOLUNTARY)

### AVAILABLE:

To all member/owners currently taking the Single Phase Service and who have a meter capacity of 400 AMPs or less, have signed the Prepaid Power Agreement and have prepaid at least \$50.00 toward service.

### APPLICABLE:

Throughout the Cooperative's service area, subject to the Cooperative's Rules and Regulations of Service and the Rules of the Wyoming Public Service Commission.

### TYPE OF SERVICE:

Single-phase service at standard secondary voltage as defined by the Cooperative.

### RETAIL RATE:

See Rate Tariff Summary Sheet

### MINIMUM BILL:

The minimum bill for the billing period shall be the highest of the following:

1. Single Phase Service Facilities Charge;
2. As specified in the contract for service;
3. Excess transformer capacity charge of \$2.10 per kVA in excess of 25 kVA.

### LIMITATIONS:

Service under this tariff is NOT available if a member of the household is listed as critical needs as outlined in High Plains Power Rules and Regulations XI 1 (b)

A billing statement will ONLY be available via email.

The Cooperative will furnish, maintain, and own all the prepaid meter equipment.

This service currently is not available to TOU, Net Metering or member/owners currently using budget billing.

### TERMS OF PAYMENT:

Payment for service shall be made in advance. At such time as the value of the service consumed equals the value of advanced purchases, the member\owner will have until the following day at 11:00 am local time (Monday through Friday, excluding holidays) to make additional payment to the Cooperative. If no payment is received by the Cooperative by that time, electric service is subject to immediate discontinuation of service from the Cooperative until the member\owner makes additional purchases. Discontinued members will be required to establish a positive credit balance of at least \$50 before being reconnected.

SERVICE: Electricity

---

**PREPAID SINGLE-PHASE SERVICE (VOLUNTARY) - continued**

The Cooperative shall attempt to make contact with the member\owner either in person or by telephone, after member\owner verification, before discontinuing service during the cold weather period of November 1 through April 30.

The Prepay Meter option is a voluntary payment plan for member\owners who would like to make payments for electric service using a prepayment method. Should a member\owner wish to switch to another authorized payment method with the Cooperative, the member\owner can do so at any time as long as Section IV Member-Owner Deposits credit has been met.

Should the electric service be discontinued, caused by member\owner's electrical usage having consumed the entire value of the advanced payment, the Daily Facilities Charge will continue to be accumulated on the member\owner's account and will be deducted from the member\owner's next advanced payment purchase for electric service. Discontinuation for reasons of non-payment does not release member\owners from their obligation to pay the Facilities Charge. After 30 days, the account will be considered an inactive account and will be processed as a new account if reconnection of service at the location is requested.

In the event the member\owner has an electric service deposit with the Cooperative at the time the member\owner elects to take service under this schedule, any amount of the deposit and interest in excess of the outstanding indebtedness will be applied as a credit on the member\owner's account.

**RULES AND REGULATIONS:**

Service under this schedule is subject to the general Rules and Regulations of the Cooperative and to those prescribed by regulatory authorities.

**POWER COST ADJUSTMENT (PCA):**

The PCA is applied as a percentage increase to the per-kWh energy charge and is an adjustment to the member\owner's electric bill each billing period to reflect fluctuations in the true cost of power the Cooperative purchases from its wholesale supplier(s).

HIGH PLAINS POWER, INC.  
1775 East Monroe  
Riverton, WY 82501

P.S.C. Wyo. No. 2  
Original Sheet No. RT 27

SERVICE: Electricity

---

## **POWER COST ADJUSTMENT (PCA)**

### **AVAILABILITY:**

All areas within High Plains Power's certificated territory.

### **APPLICABLE:**

To all services within the certificated territory and applied to energy charges and TPP Demand charges.

### **TYPE OF SERVICE:**

Single-phase and three-phase service at all voltage as defined by the Cooperative.

### **RATE:**

PCA: 0.00%  
TPP Demand PCA: 0.00%

### **CALCULATIONS**

The PCA will be applied to the energy rate for ALL rate classes of the Cooperative. This rate will be calculated based on the projected increase from the Cooperative's wholesale power supplier(s) and applied to those and future bills to recover future, current and prior excess energy charges as identified.

The TPP Demand PCA will be applied to rates that have a TPP demand charge associated with them. This rate will be calculated based on the projected increase from the Cooperative's wholesale power supplier(s) and applied to those and future bills to recover future, current and prior excess energy charges as identified.
